

RURAL HEALTH INITIATIVE

100 Emancipation Drive * VA Medical Center * Hampton, VA 23667 * 757-344-9501

Hampton, VA Medical Center Rural Health Initiative (RHI) Team's primary goal is to ensure that Veterans in rural areas receive the health care and benefits they may qualify for based on their military service. Currently, more than one in three Veterans who are enrolled in the VA health care system live in rural areas. We know that it is important to provide effective, high quality and accessible health care for those Veterans.

Through education, increased access to health care, web based services and outreach programs, RHI's main mission is to provide benefits information, access to enrollment and health education to Veterans in rural and highly rural areas. The RHI Team, located at the Hampton VA Medical Center in Hampton, Virginia is committed to developing strong relationships with the community to better serve Vets.

EXPANDED ACCESS AND AVAILABILITY OF VA SERVICES

Enrollment Specialists will meet individually with Vets to discuss benefits that are available to them, how to qualify for programs and provide assistance filing VA Health Benefits Enrollment Eligibility Form 1010EZ. Enrollment Specialists primary responsibility is to help Vets through their enrollment process step-by-step.

WEB BASED SERVICES

VA is recognized as a leader in the use of information and communication technologies to provide care to Veteran patients. Located at

www.myhealth.va.gov, MyHealtheVet is a web based program that provides Vets access to world-class innovative communications between health care providers and those who are coordinating care, especially in rural areas.

HEALTH EDUCATION AND TRAINING

Hampton Rural Health Initiative Team provides initial and continuing health education for Veterans in rural areas to include seminars on a variety of issues that face rural communities. Nurses from RHI envision enhancing education and training opportunities for Veterans as well as other rural health care providers to include expanding the use of distance learning technologies and other modalities of program delivery. RHI staff will schedule local seminars to address Vets issues as needed.

SOCIAL SERVICES

Rural Health Initiative Team Social Workers will assist linking and educating Veterans about services and programs that are available to them within the VA and their local community. Social Workers also provide ongoing and continued case management for Vets.

MyHealthVet. – At a Glance

MyHealthVet is VA's award-winning, online Personal Health Record available at: www.myhealth.va.gov. Available anywhere there is Internet access, **MyHealthVet** is for Veterans, active duty Service members, their dependents, and caregivers. With **MyHealthVet**, you can access trusted and secure VA health information to better manage your overall health and wellness, and to put the power of prevention in your hands. For Veterans, there are enhanced features and facts about VA benefits and services to which you may be entitled.

After you register, you can:

- Record and track your health information and your family's health history
- Enter past and present military service events
- Keep activity and food journals
- Record, track, and graph vital signs
- Maintain other health measures

If you are a Veteran enrolled at a VA health care facility, you can also access advanced features of **MyHealthVet**. To access the advanced features, you must complete a one-time process called In-Person Authentication or "IPA". This includes making a personal visit to your VA facility to verify your identity. After completing the IPA process, you can use **MyHealthVet** to:

- Refill your VA prescriptions by name, not just by the prescription number
- Record your non-VA medications, over the counter medications, vitamins and supplements
- Receive your customized VA Wellness Reminders
- Access new features as they become available

Expected in 2010, and after completing the IPA process, you will be able to view your VA appointments, VA lab test results, and VA list of allergies. You also may communicate with your health care teams through a "Secure Messaging" feature within **MyHealthVet**.

MyHealthVet: 24/7 Online Access to VA Health Care - It's quick, easy and it's for YOU!
For additional information contact: (757) 344-9501.

Improve Your health with Online Access Register for MyHealthVet today at

www.myhealth.va.gov.

If you are a VA patient take a few minutes during your next clinical visit to complete the one-time IPA process.

Begin your health and wellness journey today!
